

To whom it may concern:

I am a regular and dedicated listener of K-Love. I love the inspiring music they play, and I would be extremely disappointed if they were not on the air anymore. I think the station is vital to our community because there are very few radio stations that are committed to bringing the public uplifting music. Christians need this station so they have the chance to listen to encouraging music; without K-Love I don't know what station I could turn to, to find inspiring music and deejays.

Thank you.
